# TIRE SHINER

Deep Black Shine

Long-Lasting Shine

### SPECIFICATIONS

It cleans the vehicle tires and provides a long lasting shine. thanks to the film you create, ıt helps to protect the tire from external factors. It prevents dust holding due to its anti-static property. It can be used on all plastic surfaces in your vehicle, including mats, interior wickets and other rubber parts. Protects the tires against drying

### USAGE

Once the tires have been washed and cleaned and installed, the product is sprayed through a fissure, dispensed to the tire with a cloth or sponge. Don't apply the product to the ground contacting parts of the tires and to the brake pads.

### INGREDIENTS

Water, Glycerol.
